OFFICIAL BUSINESS COMMUNICATION & STRATEGIC TRANSITION ANNOUNCEMENT

Strengthening Our Operations. Expanding Our Capabilities. Building for the Future.

Dear Customers, Clients, Vendors, Business Partners and Associates,

We are pleased to share an important update regarding the evolution of our business operations and our continued commitment to serving our customers with greater capability, consistency and value.

As part of this transition, we would like to formally clarify our organizational structure, authorized communication channels, and the continued operations of our respective business activities.

1. Formal Clarification Regarding Mr. Aman Arya

We wish to formally inform all our customers, clients, vendors, partners and other stakeholders that **Mr. Aman Arya is no longer associated with Entwine Technology in any capacity and is not authorized to represent, communicate, negotiate, make commitments, issue instructions, or otherwise act on behalf of Entwine Technology.**

As Mr. Aman Arya continues to have access to certain legacy systems associated with the **@entwintechtechnology.com** domain, we request all stakeholders to take particular note that:

Any email, communication, instruction, quotation, commitment, representation, commercial correspondence or other communication received from an @entwintechtechnology.com email address should not be considered an authorized communication of Entwine Technology.

For the avoidance of doubt, **all future official communications of Entwine Technology will be issued exclusively through the new authorized email address specified below.**

Where any communication purportedly relates to Entwine Technology but is received through a legacy email address or from any individual claiming to represent the firm, we request that it be independently verified with us before any action is taken, particularly in relation to payments, banking information, purchase orders, contracts, quotations, commercial commitments or other matters having financial or legal implications.

New Official Entwine Technology Communication

Official Email: rahuljoshi@entwine-technology.com

Official Domain: <https://entwine-technology.com/>

Please update your records accordingly.

2. Continuity of Entwine Technology – R&D and Software Operations

We would also like to provide complete clarity that **Entwine Technology continues to operate and remains fully responsible for its Research & Development and Software Development activities.**

The following activities will continue under **Entwine Technology**:

- Research & Development;
- Software Development;
- Software Architecture & Engineering;
- System Design;
- Software Deployment;
- Integration and Implementation;
- Existing software-related projects and engagements; and
- Associated technical support and development activities.

There is **no change to the existing business identity, proprietorship, GST registration, or previously established commercial relationships of Entwine Technology** in respect of these activities.

Accordingly, **existing vendor registrations and client registrations already completed in the name of Entwine Technology may continue without any change.**

Banking Continuity

For existing business relationships, **the bank account details previously registered and communicated by Entwine Technology remain unchanged** and may continue to be used for legitimate transactions with Entwine Technology.

Should any stakeholder require updated documentation or, where commercially necessary, revised banking information, the same will be provided **only through the authorized communication channel of Entwine Technology.**

We request all stakeholders not to act upon any purported change in banking or payment instructions unless independently confirmed through our authorized channel.

3. A New Chapter for Smart Automated Kitchen Equipment

We are particularly pleased to announce an important strategic development.

The **Smart Automated Kitchen Equipment design and development activities** previously undertaken under Entwine Technology have now been transitioned into a new dedicated company:

INDIACOOKS AUTOMATIONS LLP

Indiacooks Automations LLP has been established as our dedicated platform for the **design, engineering, development, manufacturing and commercialization of Smart Automated Kitchen Equipment.**

This strategic transition allows us to build a significantly stronger and more focused product organization while continuing to leverage the engineering experience, product knowledge and technology capabilities developed through our earlier work.

Our New In-House Manufacturing Capability

As part of this expansion, we have established a **new in-house manufacturing setup** dedicated to our kitchen automation product portfolio.

This represents a significant step forward in our ability to control and improve:

- Product quality;
- Manufacturing consistency;
- Engineering precision;
- Production reliability;
- Product development cycles;
- Quality assurance;
- Customization capabilities; and
- Overall cost competitiveness.

Our objective is simple: **to provide our customers with better-engineered products, greater consistency, stronger quality control and significantly improved value.**

We are excited about this next phase and believe it will enable us to serve our customers with substantially greater capability and responsiveness.

4. Vendor & Client Relationship Continuity

For stakeholders who have previously completed vendor registration with Entwine Technology in relation to the Smart Automated Kitchen Equipment business, we intend to make this transition as seamless as possible.

Where required and commercially appropriate, **existing vendor registrations may continue to be referenced for ongoing transactions**, subject to the respective customer's or vendor's internal policies and documentation requirements.

Where a new vendor registration is required for **Indiacooks Automations LLP**, our team will provide the necessary statutory, banking and corporate documentation and complete the required onboarding process.

Where permitted by the respective customer's/vendor's internal procedures, **the existing bank account details previously registered for Entwine Technology may continue to be used for applicable transactions during the transition.**

Where transactions are to be undertaken directly with **Indiacooks Automations LLP**, the applicable banking details and statutory documentation will be provided separately through our authorized Indiacooks communication channel.

This distinction is intended to ensure complete transparency between the two entities while enabling a smooth commercial transition.

5. Your New Contact for Smart Automated Kitchen Equipment

All enquiries, commercial discussions, product development requirements, quotations and other communications relating to **Smart Automated Kitchen Equipment** will now be handled through:

INDIACOOKS AUTOMATIONS LLP

Email: sales@india-cooks.com

Website/Domain: <https://indiacoooksautomations.com/> & <https://india-cooks.com/>

We request all customers, vendors and business partners associated with our Smart Automated Kitchen Equipment business to update their records with the above information.

6. Clear Business Structure Going Forward

For complete clarity, our operating structure going forward is:

Business Activity	Authorized Entity	Official Communication
Research & Development	Entwine Technology	rahuljoshi@entwine-technology.com
Software Development	Entwine Technology	rahuljoshi@entwine-technology.com
Software Design & Engineering	Entwine Technology	rahuljoshi@entwine-technology.com
Software Deployment & Integration	Entwine Technology	rahuljoshi@entwine-technology.com
Smart Automated Kitchen Equipment – Design & Development	Indiacooks Automations LLP	sales@india-cooks.com
Smart Automated Kitchen Equipment – Manufacturing	Indiacooks Automations LLP	sales@india-cooks.com
Smart Automated Kitchen Equipment – Sales & Commercialization	Indiacooks Automations LLP	sales@india-cooks.com

This structure is intended to provide our stakeholders with a **clear, transparent and reliable framework for future engagement with us.**

7. Looking Ahead

We see this transition as an important milestone in our journey.

Entwine Technology will continue to focus on technology, software, R&D and engineering capabilities, while Indiacooks Automations LLP will provide a dedicated platform for taking our Smart Automated Kitchen Equipment portfolio to the next level through stronger product engineering and in-house manufacturing.

The combination of these capabilities gives us a significantly stronger foundation to develop, manufacture and deliver products that are **more reliable, more consistent, more competitive and better aligned with the evolving requirements of the foodservice and commercial kitchen industry.**

We are genuinely excited about this next chapter and look forward to continuing our relationships with our customers, vendors, technology partners and business associates with renewed focus and expanded capabilities.

We sincerely appreciate your continued trust, support and cooperation during this transition.

Please feel free to contact us through the respective official communication channels should you require any clarification or updated documentation.

Thank you for being a part of our journey. We look forward to building the next phase together.

Yours faithfully,

For Entwine Technology
